

Vanexa: videoclip for "My Grave"

Tuesday, 26 March 2019 14:32

As always, the latest [Vanexa](#) song is about social matters.

Their new single "My Grave" deals with the delicate subject of domestic violence. The grave can often consist in house walls, between which women suffer episodes of violence while children are unaware witnesses. The protagonist are therefore those kids who, despite having suspects of violence, are afraid to act losing the chance to be the hero just like in their favorite videogame. What we don't dare to do is forever lost.
